Holistic review can enhance equity & efficiency in selection, but must be implemented with care. In this day-long institute, you’ll learn the research basis for holistic review; discuss practical applications to graduate admissions, hiring, and other evaluative contexts in higher education; and assess the role that holistic review could play in designing institutional change efforts at your institution.

Led by nationally recognized experts
Dr. Julie Posselt, University of Southern California
Dr. Casey Miller, Rochester Institute of Technology
Dr. Keivan Stassun, Vanderbilt University

Made possible by NSF INCLUDES Design and Development Launch Pilot awards #1649297 and #1744440, and NSF Innovations in Graduate Education award #1633275.
